

getting
to know
us

From grid to living space, we ensure peace of mind, comfort, and sustainability. We keep people safe, secure, and in control of their environment and energy through intuitive, adaptive technologies for energy-efficient homes.

Hello, Hello,

Since its founding, Lime International has been committed itself to Providing the best experience in Building Automation Technology to meet the customers need, We put our customers first and strive to secure their loyalty through top quality service

I would like to appreciate deeply to the support of customers and Partners which enabled us to continue expand and grow the services we offer to provide our clients with the highest level of product and support.

Lime International, now, has taken the first step forward to a new growth stage. Expand our market share through an aggressive sales force, new product offerings and enhanced customer and partner support.

To fulfill our mission of becoming the leading building automation provider by satisfying our customers and creating value, we will implement our strategies through strong and swift management practices that can adapt to the ever changing global business environment. We appreciate your business and look forward to providing you with quality products and excellent customer service.

Sincerely

President

Isaac Shami

OUR COMPANY

**Applying
advanced
technol-
ogy to
make
changes
for the
better —
all around
the
world."**

We are a Company primarily engaged in providing total automation solutions globally. We are committed to providing quality and comprehensive, innovative solutions in Intelligent Automation and Control Systems coupled with technology expertise and applied to create total system Solutions to our customers.

Principally engaged in the manufacturing, and implementation of home & building automation, Lime specializes in automation of commercial establishments such as Hotels, Airports, Malls, High Rise Office Buildings and residential establishments such as villas and apartment complexes respectively.

KNX Member

As a member of the KNX Association, we are specialized in the development, manufacture and distribution of building control systems for the KNX bus. The KNX bus allows internetworking across the trades and integration of all building functions.

Manufacturing

We operate R&D centers in Germany, and manufacturing facilities in china and Tiwan. our manufacturing operations hold the most stringent quality management certification from the International Organization for Standardization (ISO 9001).

THE PRODUCT

Home Automation

Description. Our Home Automation Product will make your home more inviting, more relaxing and more livable. With Lime your home will come to life in a way you never thought possible.

Multiroom Audio and Video

Description. If you like music, you'll love our multi-room audio systems. Play any music anywhere. Every room feels like center stage with multi-room audio and video solutions.

Security & CCTV

Description. Lime offers advanced commercial and home security options with an incredible level of interactive control not available in stand-alone systems.

Intercom & Access

Description. See who's at the door from within the privacy of your home. Vision's intercom and access control systems will allow you to open locked gates and doors to let friends and family into your home.

Building Management Systems

Description. We know that building management systems make better buildings for the occupants to work in, for owners to manage and for a lower carbon planet – our building controllers help make that a reality.

DEEP SERVICE INTEGRATIONS

Description. services are an effective means of business engagement, sharing and applying our wealth of expertise in a way that benefits your organisation.

WHO WE ARE

THE TEAM- Leading the way

You'll get the benefits of a team that listens. A team that is creative and experienced.

We are Effective

we deliver on promises we are pragmatic, fast and we compete to win.

Our customers see our company through our people. We strive to have the best knowledge of our business and technology and the best capability of delivering our collective know-how. To achieve this, we create the right environment for our employees characterized by an accessible leadership, shared accountability, and superior teamwork fueled by our common culture and purpose.
